-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statements (IDS) submitted on 05/19/2004 and 07/11/2003 are acknowledged. The submissions are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the examiner.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-2 and 4-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Ciamacco, Jr. et al., hereinafter "**Ciamacco**" (U.S. Patent No. **5,938,582**).

Ciamacco discloses a catheter body **54** defining an interior lumen, an expandable structure **42, 44** having a distal end and carried by the catheter body and a stylet **56** having a proximal end and being sized and configured for passage through the lumen and adapted to straighten the expandable structure during deployment into an interior body region (Figure 17a-b). The stylet is coupleable to the catheter body and abuts against the distal end of the expandable structure and is substantially rigid.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by **Schiff** (U.S. Patent No. **4,467,790**).

Schiff discloses a catheter body **16** defining an interior lumen, an expandable structure **12** having a distal end and carried by the catheter body and a stylet **30** having a proximal end and being sized and configured for passage through the lumen and adapted to straighten (and twist) the expandable structure during deployment into an interior body region (Figure 1). The stylet is coupleable to the catheter body and abuts against the distal end of the expandable structure (see abstract). The stylet is substantially rigid and made of stainless steel (col. 5, lines 56-57).
